ICC-SRCC Receives Accreditation to Conduct Listings for Mexican Standards

Accreditation awarded by EMA for NORMEX Solar Thermal Standards

Brea, Calif. – The Solar Rating & Certification Corporation (ICC-SRCC) is proud to announce that it has been awarded accreditation by the Entidad Mexicana de Acreditación (EMA) for review to NORMEX solar thermal standards. The accreditation qualifies ICC-SRCC to offer listings to NMX-ES-001 for solar thermal collectors and NMX-ES-004 for prefabricated solar water heating systems.

The new credentials allow ICC-SRCC to further expand its services for the entire North American market. It joins offerings tailored for Canada, Puerto Rico and the Caribbean Region.

“We are gratified to receive this accreditation from EMA to better serve our clients in Mexico and those selling products into Mexico,” states Shawn Martin, Vice President of Technical Services for ICC-SRCC. “Our goal is to provide a one-stop shop for solar thermal manufacturers, and to streamline compliance assessment throughout North America.”

The voluntary NMX standards reference international testing standards such as ISO 9806. This makes it possible for many manufacturers to obtain listings to the NMX standards with little or no additional testing beyond what is required for OG-100 certification.

“I truly believe that our customers would greatly benefit from our new certifications: Solar Water Heater NMX-ES-001-NORMEX-2005 and NMX-ES-004-NORMEX-2010, as it demonstrates our commitment to expanding our

services throughout Mexico, Central America and the Caribbean regions,” said Alonso Morlesín, Certification Analyst for ICC-SRCC.

For more information or to apply for a listing to the NMX standards, contact ICC-SRCC at 888-422-7233 x7736 or srcc@solar-rating.org.

###

About ICC-SRCC

The Solar Rating & Certification Corporation (ICC-SRCC) is a program of the ICC Evaluation Service (ICC-ES). [ICC-SRCC](#) provides authoritative performance ratings, certifications and standards for renewable energy products.

About ICC-ES

ICC Evaluation Service (ICC-ES), a member of the ICC Family of Solutions, is a nonprofit, limited liability company that provides technical evaluations of building products, components, methods and materials. ICC-ES [evaluation reports](#), [building product listings](#) and [plumbing, mechanical and fuel gas listings](#) provide evidence that products and systems meet requirements of codes and technical standards.
